

MATERIAL INSTRUCTIONS

MY GRANO

print on demand products (POD)

Please note the following when providing material to My Grano:

MATERIALS TO MATCH THE END PRODUCT

The materials for POD (unedited) products must be created in accordance with the general material instructions specified by Grano, and they must be compatible with the printing method and any related special requirements.

- If necessary, you may verify the printing method (e.g. offset, digital printing or large format) with your contact person.
- Please name your material files as clearly as possible.

See Grano's general material instructions on our website: www.grano.fi/en/aineisto-ohjeet.

MATERIAL DELIVERY

Discuss material delivery with your contact person.

ANY QUESTIONS?

Not to worry, your contact person is happy to help with any further questions!

We are also glad to help with creating and finishing materials for the system.
